INJECTION MOULDING

SHAPING THE WORLD WE LIVE IN

# INJECTION MOULDING

Rotalac's injection moulding expertise provides clients with a truly bespoke service, whatever the requirement. Extensive engineering skills are held in-house, including tool design and manufacturing capabilities to take any project from concept through to production.

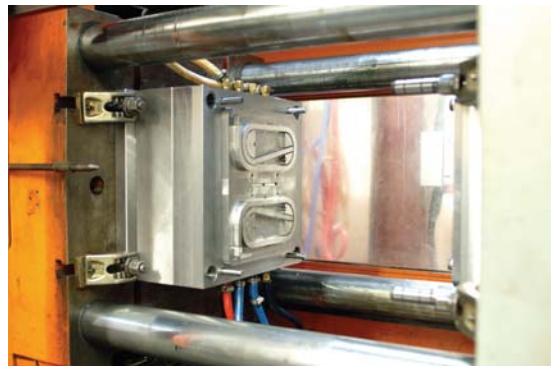

Rotalac's skilled team can also provide support in secondary operations and assembly.

An extensive range of material grades and colours is available, including: PE (LD & HD), ABS, PP & Nylon.

Rotalac can provide colour matching to industry standard colours (RAL and Pantone specification).

Rotalac has a range of machines, from 70 tonnes to 135 tonnes.

All products are manufactured in accordance with our quality procedures accredited by BS.EN ISO 9001:2000.
